Pennsylvania Home Improvement Contractor Registration # 2783

January 3, 2011

Solution Concrete, Inc.
Attn: Justin Radwanski
4401 Perkiomen Avenue
Reading, PA 19606

Dear Justin,

I just wanted to take this opportunity to thank you for a job excellently performed on a recent block foundation and concrete slab install. From the estimate phase all the way to the completed product, you and your associates displayed knowledge and professionalism that is becoming harder and harder to find in service related businesses.

I firmly believe that you and your company are able to effectively manage and address any and all concrete, excavation and masonry needs for not only the professional contractor, but the homeowner as well.

You and your crew always updated me on the status of the project, and kept me informed of any necessary changes or obstacles – such as the sub-freezing temperatures you worked in for most all of the project! Additionally, the jobsite was always left exceptionally clean and you and your crew took great pride and displayed excellent craftsmanship in ensuring the finished product would be perfect.

I will certainly continue to use Solution Concrete, Inc. in the future for any excavating, concrete or masonry needs. I will also continue to recommend you to anyone in need of a concrete professional.

Feel free to use me as a reference anytime.

Sincerely,

Mark Cooke
