COMPLETED PROJECT

Dear Justin

This note is simply a follow up to the completion of what we at Fairview Cemetery and I am sure Mt. Sinai as well was a job well done by you and your crew. The curbs look great. I wish we had the resources to replace all of them but funds come hard to a church related non-profit cemetery. But, you presented yourself and your Company in the most professional manner especially when compared to other concrete contractors invited to bid. I will surely suggest your name and Company to anyone I encounter needing a concrete project completed on time and within budget.

Best personal regards
